**Runway Elevation** = 2312

**Distance from the object parallel to extended runway center line perpendicular to line for C1 and C2**

1. **Aviation Zone A**
   - Construction is not allowed except for Aviation Related Buildings

2. **Aviation Zone B**
   - Project site Elevation

3. **Aviation Zone C**
   - Project site Elevation + (2% of *)

4. **Aviation Zone D**
   - Project site Elevation

**Building Line (Setback)**

- For a height of five (5) meters from the natural ground level (NGL), the building could use the set-back space with cantilever.

### Street Type
- **Arterial street**
  - Street Width (Meter): >30
  - Building Line (Setback): 3 meter
- **Sub-arterial street**
  - Street Width (Meter): 25-30
  - Building Line (Setback): 3 meter
- **Collector street**
  - Street Width (Meter): 15-20
  - Building Line (Setback): 2 meter
- **Local street**
  - Street Width (Meter): 10
  - Building Line (Setback): 1 meter
